Education

Yale University , Ph.D. Student in Computer Science, advised by Prof. Fan Zhang	Aug. 2023 — <i>present</i>
Tsinghua University , B.Eng. in Computer Science and Technology (Yao Class)	Aug. 2019 — June 2023

Research Interests

My research interests lie in applied cryptography, blockchain security, and mechanism design. I am currently working on privacy, verifiability, and secure delegation for AI systems.

Experience

Category Labs, Inc. , Summer Research Intern	May 2025 — Aug. 2025
---	----------------------

Awards and Grants

Nathan Hale Associates Fellowship , Yale University	2025
ZK Grant from Ethereum Foundation for “Cirrus: Performant and Robust Distributed SNARK Generation via Computation Delegation”	2024
ZK Fellowship from Matter Labs	2023
Outstanding Youth , Tsinghua University, China	2021
Comprehensive Excellence Scholarship , Tsinghua University, China	2020, 2021, 2022
